## **CNC Programmer/Machinist**

### **Who we are:**

M&S Machining is an advanced manufacturing company with over 25 years of experience serving defense and aerospace industry leaders such as Northrop Grumman, General Dynamics, and Space X. We operate in a clean, climate-controlled, modern facility filled with state-of-the-art equipment and provide our team with all the latest tools necessary for success. We believe strongly in the growth and development of our employees by offering an environment with exceptional opportunities that can unlock your highest potential. We welcome candidates of all levels of experience and are excited to work with those individuals who strive to be the best.

### **Who were looking for:**

M&S Machining is seeking machinists who have experience programming CNC machining centers. A candidate will be expected to program and assist in the set-up of multiple new and different parts during a given week using strategic processes that incorporate a proper understanding of mathematics and engineering.

### **What we bring:**

- Area leading pay!
- Career advancement.
- Opportunity for growth
- Weekly pay
- IRA with 3% match
- Health, Dental and Vision insurance
- Paid Holidays
- Paid Time Off
- Relocation assistance and Travel reimbursement
- Direct Hire position
- Full Time, Day Shift, Monday through Friday, Overtime

### **What you'll bring:**

- Drive to continuously learn.
- Interest in math and science.
- Dedication to career growth.
- Strong communication skills with the ability to overcome challenges.
- Innovative and creative thinking.

### **What you'll be doing:**

- CAM Programming multiple different geometrically complex parts at various machining centers.
- Analyzing engineering blueprints, solid models, and/or sketches to determine the type and sequence of machine operation.
- Working with junior machinists to set expectations and further develop their skills at a high level.
- Working closely with the CMM inspection lab; have an in-depth knowledge of metrology and GD&T.
- Measuring parts on and off a machining center to prevent quality issues and production delays.

### **Favorable if you have:**

- Experience using SurfCAM, FeatureCAM, PowerMill, and/or Solidworks.
- Experience working in a low volume, high mix manufacturing facility.
- Experience in the defense and aerospace manufacturing industry.

### **Not From the Area?**

M&S Machining offers relocation assistance for qualified individuals! We are surrounded by rolling hills and beautiful farmland while also offering all the amenities of a large metropolitan area. We are located only 15 minutes from Lexington and 1.5hrs from Cincinnati and Louisville. The local economy is thriving with an excellent job market and a multitude of opportunities for your family. All of this combined with a local housing market that is significantly cheaper than the national average, makes central Kentucky a great place to call home!

**Location:** On Site: 100 Hud Rd. Winchester, KY 40391

**Work Remotely:** No

Job Type: Full-time
