Welder/Fabricator

Who we are:

M&S Machining is an advanced manufacturing company with over 25 years of experience serving defense and aerospace industry leaders such as Northrop Grumman, General Dynamics, and Space X. We operate in a clean, climate-controlled, modern facility filled with state-of-the-art equipment and provide our team with all the latest tools necessary for success. We believe strongly in the growth and development of our employees by offering an environment with exceptional opportunities that can unlock your highest potential. We welcome candidates of all levels of experience and are excited to work with those individuals who strive to be the best.

Who were looking for:

M&S Machining is seeking candidates who have welding/fabricating experience and an interest in advanced manufacturing. Individuals applying for this position must have a strong interest in welding and fabrication along with a strong desire to further develop their skills. M&S offers on-the-job training and access to industry-leading equipment.

What we bring:

- Area leading pay!
- Career advancement.
- Opportunity for growth
- Weekly pay
- IRA with 3% match
- Health, Dental and Vision insurance
- Paid Holidays
- Paid Time Off
- Relocation assistance and Travel reimbursement
- Direct Hire position
- Full Time, Day Shift, Monday through Friday, Overtime

What you'll bring:

- Drive to continuously learn.
- Interest in math and science.
- Dedication to career growth.
- Strong communication skills with the ability to overcome challenges.
- Innovative and creative thinking.

What you'll be doing:

- Performing a variety of approved welding and fabricating techniques to required tolerances per engineering blueprints and specifications.
- Programming and operating CNC brake presses, fiber optic laser cutters and robotic welding cells.
- Managing task execution to ensure on-time and on-target completion.
- Making detailed plans to accomplish goals.
- Accurately inspecting and appropriately processes all work performed according to engineering and customer requirements.
- Setting up and operating robotic welding equipment.
- Operating sand blasting equipment to support various needs in the weld department.
- Special projects as needed.

Favorable if you have:

- Experience in machining, sheet metal, metrology, and GD&T at a high level.
- Aerospace and/or defense manufacturing experience.
- Experience welding per AWS D1.1, D1.2, D1.3, D17.1.
- Experience developing procedures i.e. W.P.S./P.Q.R.

Not From the Area?

M&S Machining offers relocation assistance for qualified individuals! We are surrounded by rolling hills and beautiful farmland while also offering all the amenities of a large metropolitan area. We are located only 15 minutes from Lexington and 1.5hrs from Cincinnati and Louisville. The local economy is thriving with an excellent job market and a multitude of opportunities for your family. All of this combined with a local housing market that is significantly cheaper than the national average, makes central Kentucky a great place to call home!
